30%	60%	40%	10%	10%	10%

Forecast for Thursday 23 Dec 2021

Weather: A mostly cloudy day with mainly light rain or drizzle at times, perhaps persistent for a time around midday. Some brighter or clearer spells are expected in the late afternoon and early evening before cloud increases again later.

Chance of cloud free mountain/hill tops above 600m: Close to zero through much of the morning, improving to 80% during the afternoon.

Visibility: Periods or persistent cloud above about 300-450m, perhaps nearer 600m at times in the east, and more occasional above 600m for a time through the late afternoon and early evening. Below the cloud visibility rather hazy falling to several kilometres in rain and drizzle, becoming good for a time in the late afternoon and evening.
